The Benefits of Direct Deposit

Offering the option of direct deposit is a great benefit to your employees, as well as a huge time and money saver for your payroll department.

Employees save time because they no longer have to take their checks to the credit union (or, heaven forbid, the bank!) to deposit or cash. Direct deposit also insures the member's money will be in his account on the day he is paid, regardless if there are weather or other unforeseen circumstances that would preclude the paychecks from being delivered. Usually, the money will be in the member's account well before the pay stub is even distributed.

Payroll departments save time and money when employees choose to have their paychecks directly deposited to their financial institutions. Employees using direct deposit reduces the amount of the payroll department will spend reissuing checks to employees who misplace their paychecks. With the use of direct deposit there is also a significant reduction in the risk of check fraud.

With the convenience of direct deposit everyone wins. If you have any questions about direct deposit, or if you would like us to visit your company to explain the benefits of direct deposit to your employees, please call Donna Henry, 1-800-951-8000, ext. 138, or email her at donnah@memcu.com.
